To Whom It May Concern:

**RE: Terry's Barn Restoration**

Terry Stitt and Terry's Barn Restoration has been restoring two large, two-story barns on our farm just outside of Delton, Michigan since last summer.

Their work has been exceptional...their workmanship and craftsmanship are excellent, they are very professional in terms of how they conduct themselves and their business, and they are very budget and cost conscience. Furthermore, they consistently are very creative, yet practical, in solving problems and/or improving the overall restorations. Terry and his entire crew are also very easy to deal with.

Considering that we have not yet moved full-time to Michigan from our primary residence in Florida, a great deal of the discussions and decisions regarding the project have to be conducted "long distance." While we were originally somewhat concerned about how this would work, Terry has made sure we are always kept fully informed and we communicate regularly and it is in no way a problem. We trust them implicitly.

I would strongly recommend Terry Stitt and Terry's Barn Restoration.
