RE: Terry's Barn Restoration

In the summer of 2005, we engaged Mr. Terry Stitt and his company, Terry's Barn Restoration. They are located in Three Rivers, Michigan. For the record I was serving as a trustee of the trust owning the property.

The barn which was in need of restoration is on Lawrencia Farms, and is located about 2-1/2 miles north of Richland Michigan on M-43, [9990 North 32nd Street.]

This wooden structure was reportedly built in the 1830's and required some reinforcing of the original wooden structural components; restoration of the foundation; and replacement of the siding and roof. The project was bid by Mr. Stitt and was accepted as quoted. The firm began its work on schedule and finished earlier than promised. The final cost for project was the same as quoted - this included some unexpected work.

The firm is most professional and well experienced in this field. I would recommend them highly.

A handwritten signature in black ink, appearing to read "John Lawrence". The signature is stylized with large loops and flourishes.
